The spelling outline for kindergarten should include parent spelling words starting with the basic two letters of the word, or three letters of compromise-vo-conpromising words, and become more complex. For example, spelling words can be introduced that end in a silent e, by changing the first vowel from short to long, for example, with silent-e, HOP changes hope. Also double-e sound as in SEE, FEE and TREE and double-o as in BOOK are introduced. Another starting point for kindergarten spelling lists for the beginning of the year are: DAD and Mom. The children then begin to expand the list by working through the word family. From DAD, students would then learn that changing the first letter of a word would change the meaning and sound of both BAD, SAD, HAD, and MAD. It also learns that changing vowel vowels will also change the word both DID and HID. In kindergarten, spelling skills grow to cover mixtures, such as T plus R, to make TR sound, as in TREE. F and R mixture to fr sound in FROG. These very young children are taught through spelling activities, including many creative methods that make the kindergarten spelling program fun for them. Remember that each child learns to a different degree, so what works for some students may not be the right approach for your child. Which is why so many parents get Time4Learning's self-paced, modular lesson plans. You can skip lessons that teach concepts your child has already mastered and repeat those that he or she does not have. The choice is yours. Basic spelling skills Spelling skills should be developed as part of the overall language arts phonetic awareness, phonics, reading comprehension, vocabulary and reading fluency, grammar, reading and writing program. Children should (with the help of their parents) develop their basic spelling skills through interest in words, regular typing, constant reading, studying spelling rules and playing spelling games. With the help of their parents, children can develop and strengthen basic spelling skills through the following activities: Regular typing for a head start on spelling, punctuation and other terms Constant reading or use of workbooks for reading Frequent study of spelling rules, such as letters and sounds Spelling bees for a fun way for your child to practice spelling Playing spelling games, quizzes or word games that help develop their spelling skills Structured computer spelling programs Personalized learning and help in strengthening confidence Set daily time blocks for spelling and reading activities Teaching through controlled spelling activities such as word sorts or text boxes Create a rich language environment at home based on the quantity and quality of spoken words Time4Learning teaches everyday school comprehensive spelling curricula using fun activities to build a solid spelling base. Help your child excel in spelling by trying one of our demos Time4Learning. Time4Learning. List of spelling words What spelling words should your nursery know? With the support of seasoned homeschoolers can really help make your homeschooling journey a success. So what is all the hype about Word of the Week? It comes down to the simplicity of the idea and more importantly the huge impact it can make in expanding its students' vocabulary as well as improving reading and writing. Make your classroom buzzing! Subscribe to Teach Starter and access thousands of resources and digital learning tools in accordance with the curriculum. Get Started Vocabulary is a critical factor in developing reading skills and understanding. Unfortunately, not every student comes to school with a reasonable level of vocabulary knowledge to support reading success. The more words your students know, the easier it will be for them to read and understand what they have read. As we know, reading and writing skills are closely intertwined and each helps improve the other. Introducing our students to challenging words through Word of the Week can help increase their students' confidence to use sophisticated language in their writing and begin to understand the power of words. If Word of the Week is something you'd like to try in your class, read on to access our of the Week teaching resources and information you need... Word of the Week PowerPoints - - Year to Year 6 We create Word of the Week PowerPoint for each level of primary school year. Each presentation contains teacher notes, 40 slides, and activities that introduce a new vocabulary. Each slide contains: a new word a definition example sentence that displays a word used in the context of a question or activity for students to discuss words that are similar or related. Vocabulary selected for each year group has been carefully selected by our talented team of content resource manufacturers. There is a steady progression in the difficulty of words during the year levels and presentations for the years below include illustrations to promote understanding. Word of the Week Flip Books We find the new Word of the Week Flip Books are a great addition to our Word of the Day/Week Collection. They are a great alternative if you have limited access to an interactive whiteboard and a great addition to the Word of the Week classroom display. There's a flip book for each year level. We recommend giving these flip books justice by pushing them in larger sizes. You can either tie flip books or holes at the top and use card rings or keychain to hang flip books. Word of the week for lower years For the lower years, Word of the Week should be all about getting your students excited about learning new vocabulary, having fun and exploring new words through play and discussion. Word of the Week activities for the lower years should include: brainstorming other words that have similar meanings in the world into a real-world context of the connection between words and the lives of their students exploring new vocabulary through movement, drama and action. Movement, drama and action. Can you imagine the buzz in the classroom when you ask your students to show you what action an animal would take? Here are some other examples of how you and your students can explore a new vocabulary through movement and drama: Word of the Week: Giggling - What does your laughter sound like? How does your laughter differ from your friends? Can you laugh like them? Word of the Week: Paddle - What actions would you use to paddle? Word of the Week: Dance - What's your favorite dance move? Where did you learn that? Remember, Word of the Week is about loving language and having fun, especially for the years below. For the upper years we created the Word of the Week Poster, which includes a variety of tasks to give context and meaning to the new challenging word. It is ideal to use it as an entire class vocabulary activity or as part of your English Group Activities. The pedagogical resource encourages students to deconstruct the word, identify its meaninglessness and use the word in a written context. This activity works very well as an English group activity or a whole class of activity. You can easily support less confident students by encouraging them to work with a partner. Word of the Week Homework Activity Word Week provides a great opportunity for meaningful homework Here are some ideas you'd like to include as part of your homework matrix: Create a Word of the Week poster to illustrate its meaning. Find and cut out examples of Word of the Week in newspapers or magazines. Use the word of the week in conversation with your family and explain what it means to an adult. Type the synonym for Word of the Week. Find Word of the Week in the dictionary. Record the dictionary definition. Word of the Week Roll Cube Activity Rolling Cube is a great way to generate six different activities related to your Word of the Week. Use our Cube Roller Widget to take this activity to the next level. When using the Dice Roller Widget, you can either roll 1 die for the entire class or roll up five cubes to assign different tasks to different groups. Simply roll the dice and ask your students to complete the relevant activity. For example: Roll 1 – Type your word in a sentence. Roll 2 - Draw a picture to express the word. Roll 3 - Write a newspaper headline that contains the word. Roll 4 - Type the definition of the word. Roll 5 - Find the Scrabble score of your word. Roll 6 - Count the number of vocabularies and conprompts in your word. For independent fast finishing activities, allow your students to collect to die and work through rolling tasks to die until all six tasks have been completed. Your kids will love building your Word of the Week with these Giant Letter Tiles. They are available for download in Giant Capital Tile or Giant LowerCase Tile. Word Tile Totals If you are looking for a more structured task, why not check out our Word Tiles Overall Activity? This learning resource encourages students to think mathematically while developing their spelling skills. It can also be used as one of your English group activities or a quick finisher activity to revise and revisit the challenging vocabulary of Word of the Week. Each week, encourage students to spell Word of the Week using the word tile and calculate the word score for the word. When you have recorded ten words, they invite their students to calculate their total word tile total! Word of the Week Revision SEM't miss out on this brilliant interactive teaching resource! Remember that children need to be exposed to new vocabulary several times before they understand it. A great way to do this is to use the word of the week and revisit it daily using our Word of the Day Spinner. Simply add the word of the week or create a list of words that your students have learned so far and press spin for instant activity. You can also customize activities by selecting from activities in the lower, middle, or upper years. Spin activities for middle years include: using a word in a compound sentence writing 3 tracks that would help someone guess the word writing list of words for word writing list of other words related to the word... and much more! The whole school initiative Be that person who is brave enough to Word of the week for the entire school initiative. Just think of the huge impact that you could create and the positive difference that you could make by expanding the vocabulary of students throughout the year groups. This is one of the easiest whole school initiatives to implement because all you need is there when you click the download button. All you have to do is provide each year's group coordinator with Word of the Week PowerPoint and the corresponding Word of the Week Flip Book! All your colleagues need to do is commit to sharing the word of the week on Monday morning and following it with a few fun activities. Great Words for Little Geniuses by Sue Patterson, James Patterson, Pan Hsinping Ages: 4-7 Published: September 4, 2017 Hardcover available at Booktopia eBook Edition on iBooks and Google Play, Kindle edition on Amazon This New York Times bestselling picture book is a fun book to share with your students. For each letter of the alphabet, a sophisticated word and its definition are given. Your students are happy to learn this adventurous vocabulary. You may even have some problems reading some of these words! But hey, there presents another learning experience as you model how to sound out of sly words and decode them! Here's one for you... Arachibutyrophobia (Ah-RACK-ee-byoo-tee-ro-FO-bee-ya) Arachibutyrophobia is an alarming fear of peanut butter sticking to the top of your mouth! Research suggests that vocabulary is extremely important for children's development and you, as their teacher, can have a huge impact on your students' vocabulary skills. A broad knowledge of vocabulary improves all areas of communication - listening, speaking, reading and writing. Word of the week is a quick and easy way to make a huge difference in your students' future. Don't hesitate, just do it. Try Word of the Week in your class and spread the word. We love hearing from you and getting a sneak peek into your class! Share your photos with #teachstarter Make class buzz! Subscribe to Teach Starter and access thousands of resources and digital learning tools in accordance with the curriculum. Getting started
